1. Document Details

1.1 Summary

This is for the Desktop Interface to Online Converter full release V1.0.00.

1.2 Supersedes

None.

1.3 Version History

Version	Date	Details
1.00	3 March 2015	Authors & Contributors at this version Ian Wadsworth. First issue.

1.4 Copyright

This document, test files, executables and related files are copyright of Ian Wadsworth (except where indicated), and must not be distributed to any un-authorized testers without the consent of Ian Wadsworth.

2. System Requirements Information

2.1 System Requirements

- Requires Windows XP, Windows Vista, Windows 7, Windows 8.x or Windows 10.
- A mouse or pointing device
- A display with a minimum resolution of 800 x 600 pixels, colour or monochrome
- At least 4MB of hard disk space
- The application uses about 22MB of DRAM.
- Requires the Microsoft .NET Framework 3.5 Service Pack 1 (Requires at least Service Pack 2 Win XP), if not already installed. The installer will detect if the framework is installed or not.
 - If you have Internet access it can be downloaded from <http://www.microsoft.com/en-gb/download/details.aspx?id=25150> (about 235MB)
 - If no Internet access, it may be on the operating systems install disk.

The supplied files are (after installing): -

```
DesktopInterfaceToOnlineConverter.exe
DesktopInterfaceToOnlineConverterUserGuide.pdf
eula.rtf
unins000.dat
unins000.exe
```

3. Installation

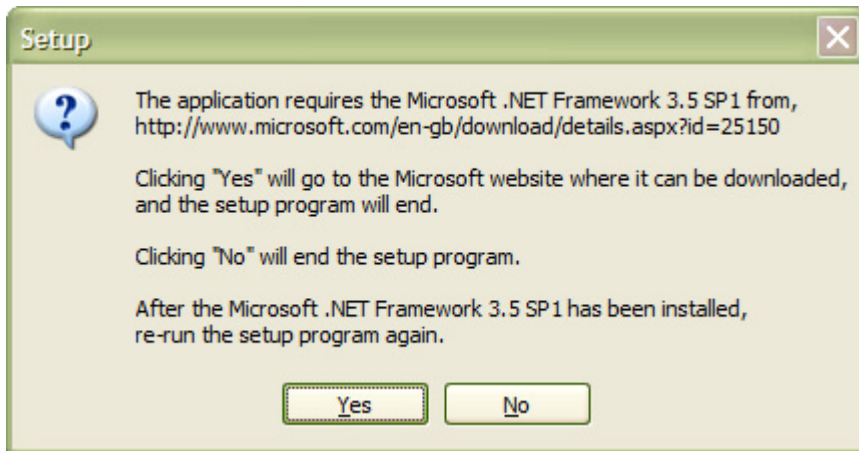

3.1 The Set-up Wizard

Clicking on the set-up file `SetupDesktopInterfaceToOnlineConverterReleaseV1-0-00.exe` will launch the installer (see Picture 3 Desktop Interface to Online Converter Set Up Wizard). Depending on the Windows Operating System used, you may get the 'User Account Control' pop up (see Picture 2 Windows User Account Control (Vista/Windows 7/ Windows 8)), click 'Yes' to continue.

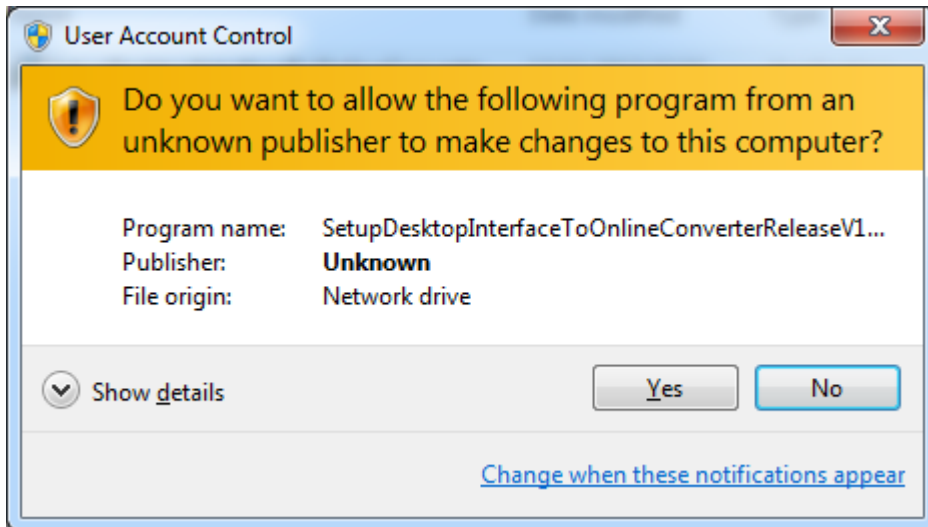

Note: the version number may to different to the one displayed.

If the required .NET framework isn't installed a pop message will be displayed see Picture 1 .NET Framework 3.5 SP1 not found. The framework will need to be installed before the installation can be re-started.

Picture 1 .NET Framework 3.5 SP1 not found

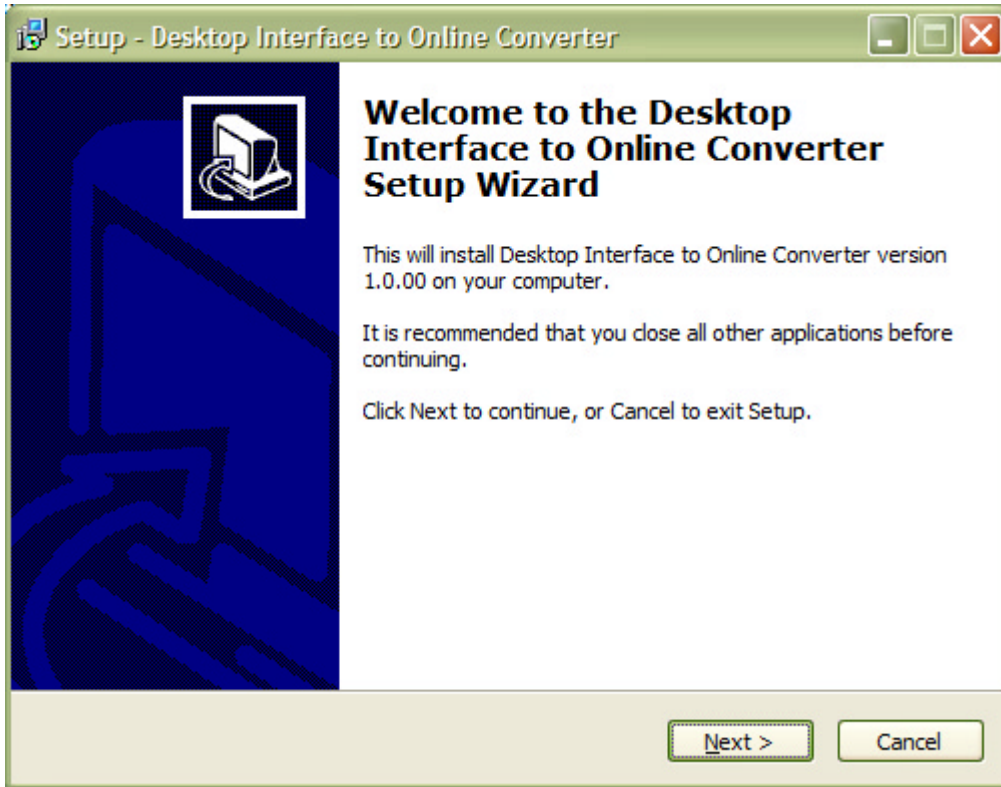

Picture 2 Windows User Account Control (Vista/Windows 7/ Windows 8)

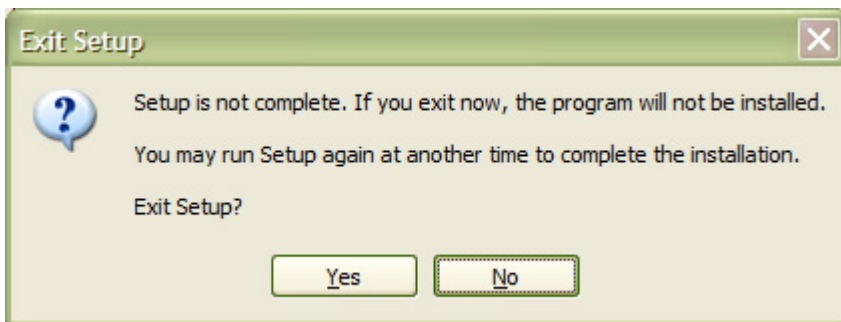

Click the 'Next' button to continue, or the 'Cancel' (see Picture 4 The Cancel Button Clicked) at anytime during the installation will stop it.

Picture 3 Desktop Interface to Online Converter Set Up Wizard

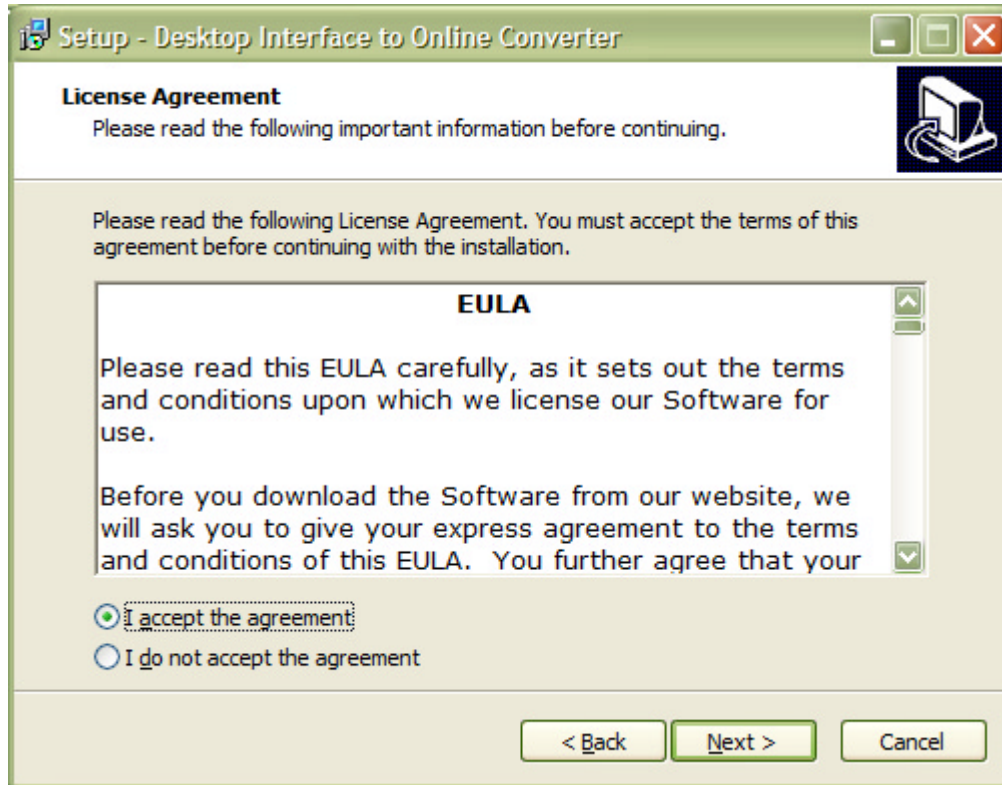

Picture 4 The Cancel Button Clicked

Read the licence agreement and either accept or reject it. If accepted, click on the 'Next' button.

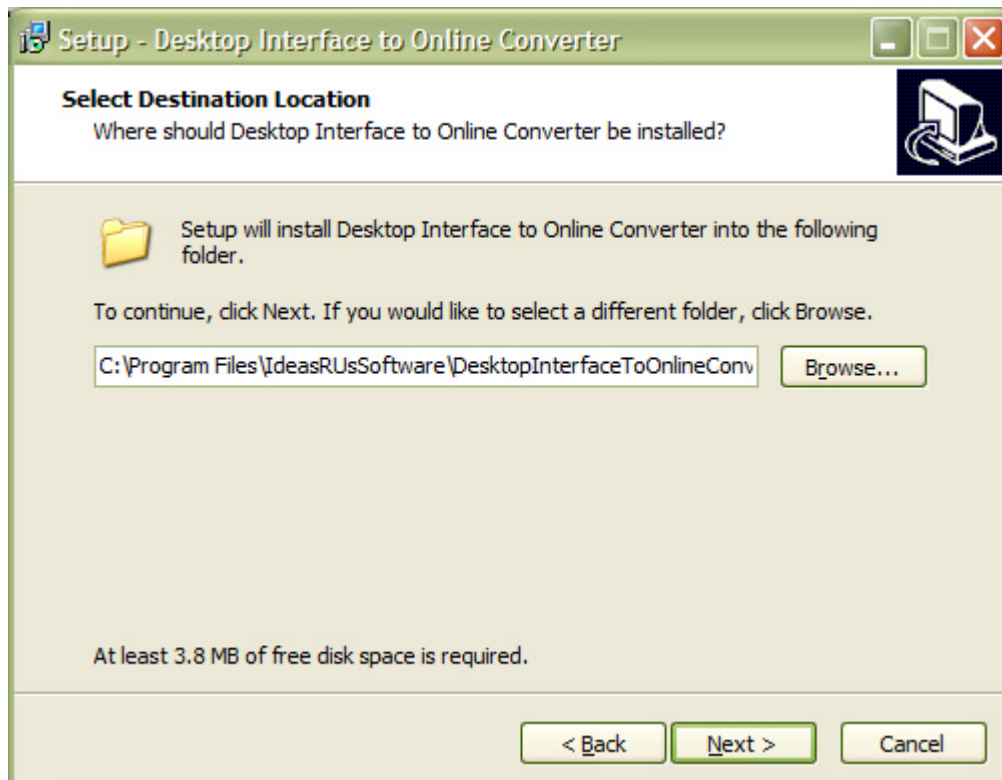

Picture 5 Licence Agreement Form

The destination folder for the installation can be changed from the default location, by clicking the 'Browse' button and selecting the new destination folder. See Picture 6 Destination Folder.

If the destination folder doesn't exist or if it already exists, there will be a pop message box asking you what to do. Click either 'Yes' or 'no'. See Picture 7 Destination Folder doesn't Exist and Picture 8 Destination Folder Exists.

Picture 7 Destination Folder doesn't Exist

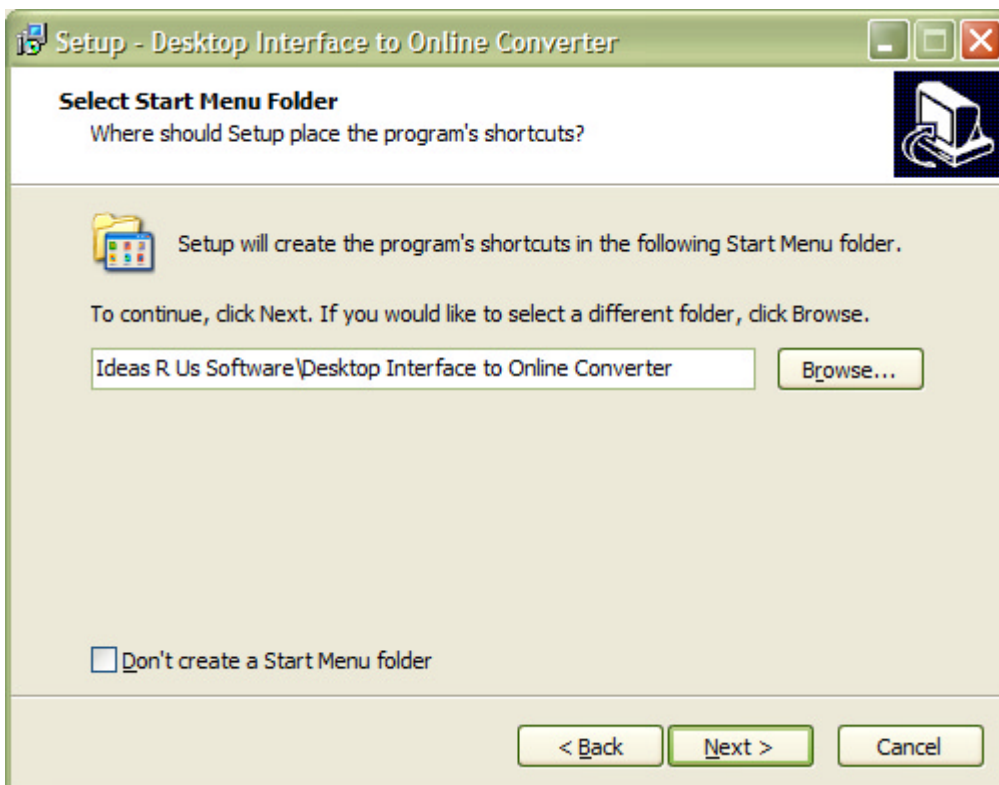

Picture 8 Destination Folder Exists

You can choose to add a Start Menu folder (see Picture 9 Start Menu Folder) to the Program's shortcut (see Picture 10 Start Menu Folder under Programs in Windows XP) that can be renamed. Windows 8.x does not have a Start Menu. Checking the 'Don't create a Start Folder Menu folder' box will not create the folder. Click the 'Next' button.

Picture 9 Start Menu Folder

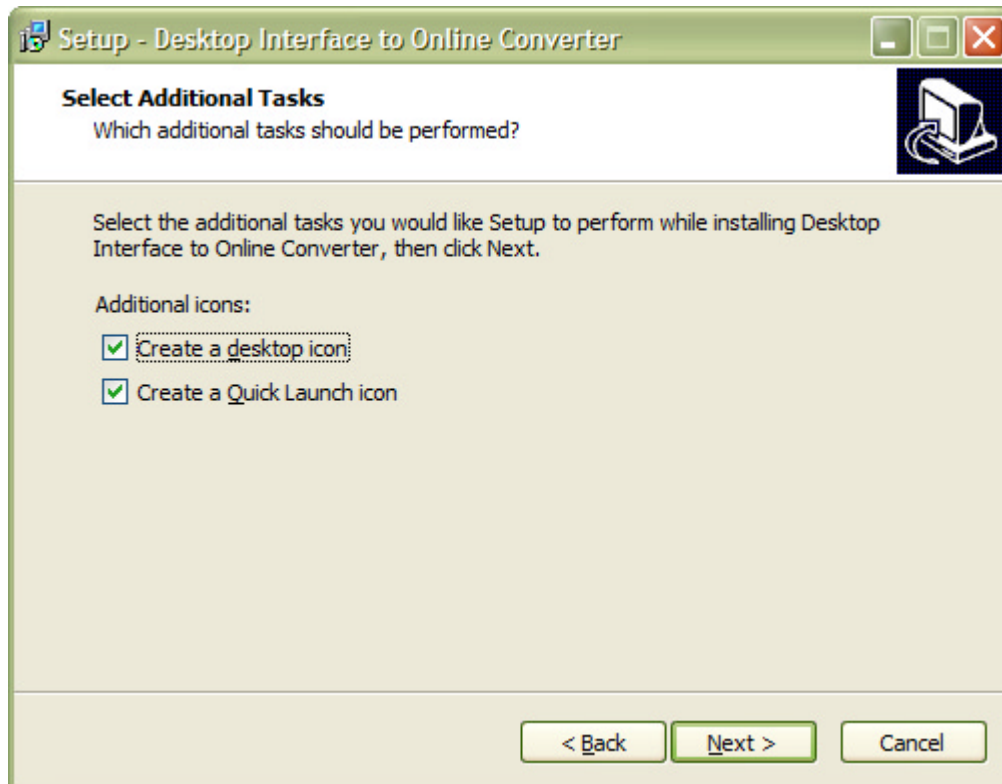

Picture 10 Start Menu Folder under Programs in Windows XP

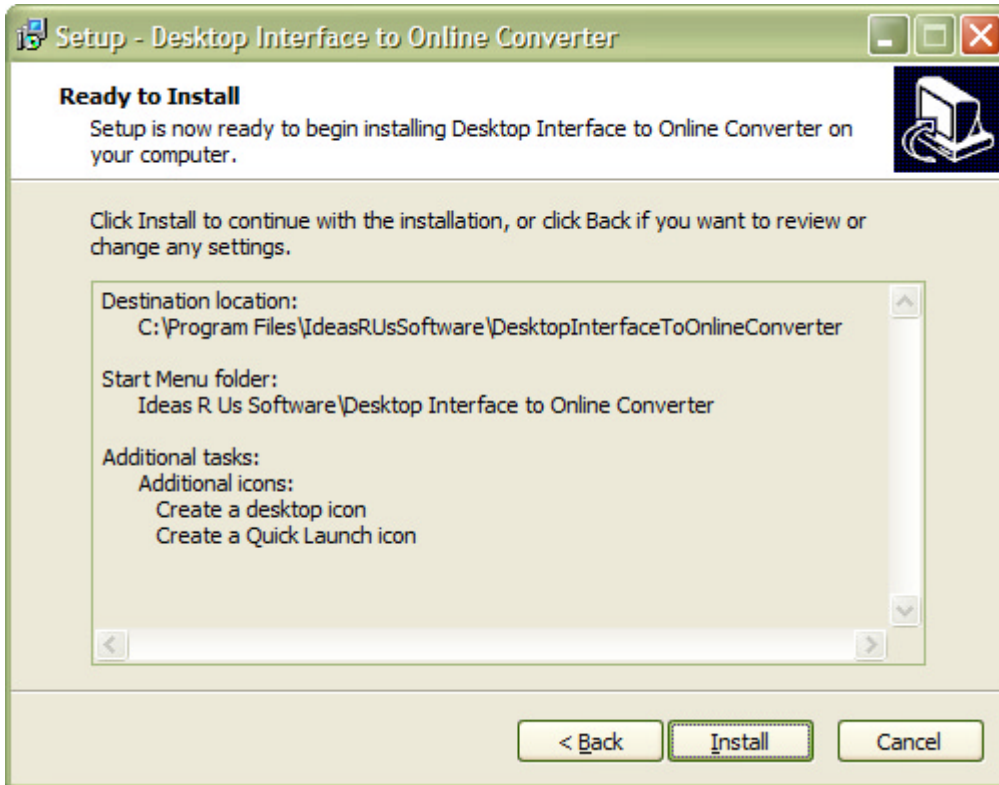

Choose to add a desktop and/or a quick launch icon (depends on the Operating System, shown for Windows XP). Click the 'Next' button.

Picture 11 Add a Desktop Shortcut and Quick Launch Icon in Windows XP

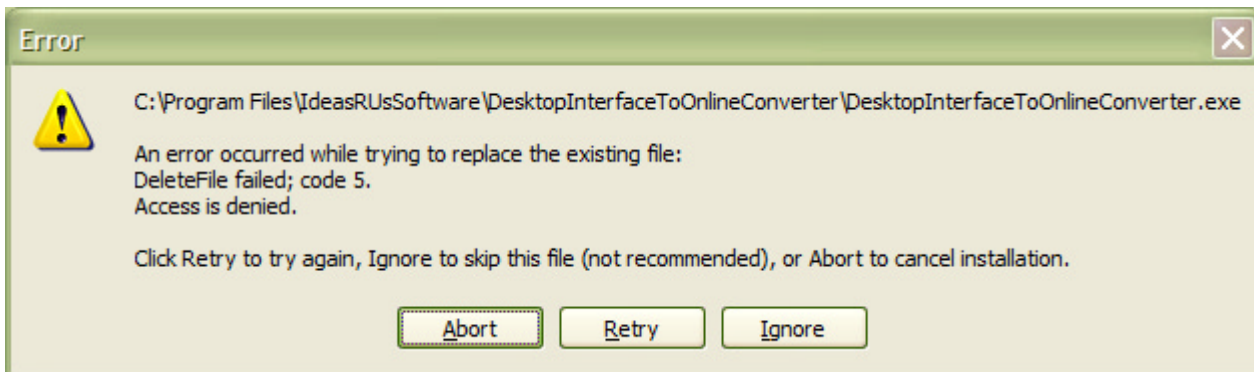

This is the last form, and the last chance to cancel the installation. Click the 'Install' button.

Picture 12 Ready to Install

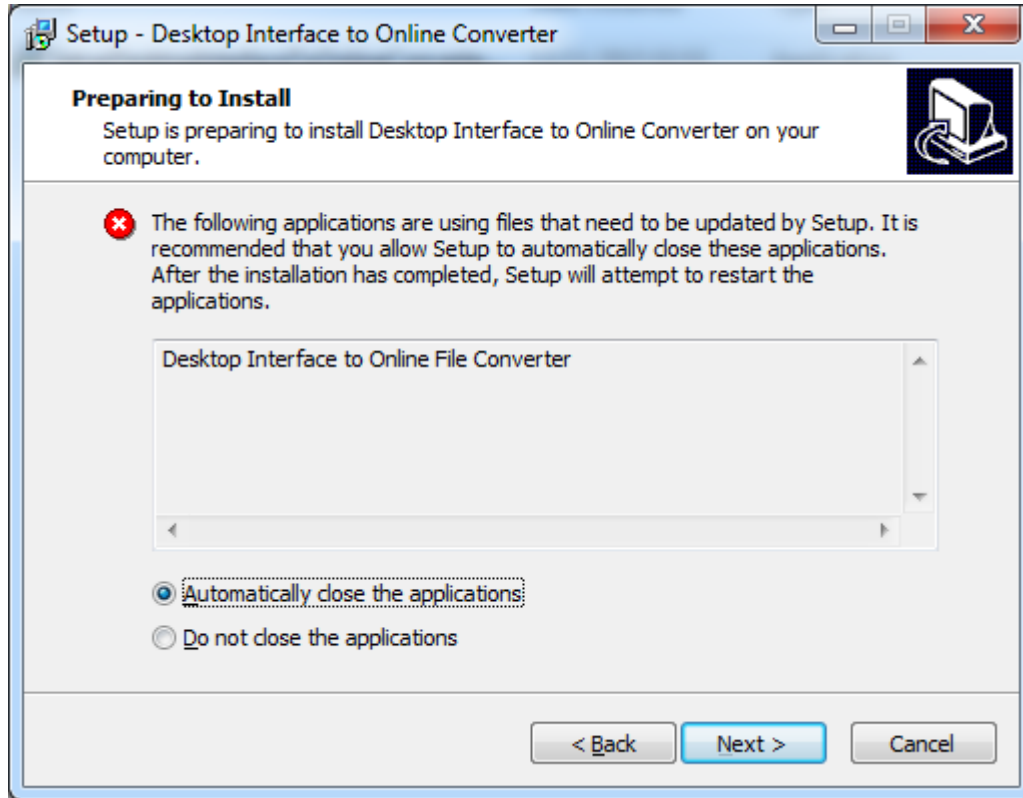

The pop-up below (or similar) will be when Desktop Interface to Online Converter is running. Close the Desktop Interface to Online Converter application and click 'Retry'.

Picture 13 Pop-up when the Desktop Interface to Online Converter is running

The pop-up below (or similar) will be when Desktop Interface to Online Converter is running on Windows 7/8.x/10. Click the 'Next' button.

Picture 14 Pop-up when the Desktop Interface to Online Converter is Running (Windows 7/8.x/10)

Clicking on the 'Finish' button will launch the Desktop Interface to Online Converter application if the 'Launch Desktop Interface to Online Converter' box is checked.
